Esthetic Non-Porcelain Crowns for Bruxers & Grinders

If you are a bruxer or a grinder, have chipped teeth or had porcelain crowns chipped, and wanted to have an esthetic crown that wouldn't chip, we have great news for you.

Thanks to constant improvements in dental material and technology, we are excited to introduce BruxZir Solid Zirconia to our patients.

BruxZir solid Zirconia is indicated for crowns, bridges, implants, inlays and onlays, and made from the highest quality zirconia from Japan.

BruxZir crowns & bridges are:

- Chip-resistant, as it is made of solid zirconia with no porcelain overlay
- Glazed to a smooth surface to reduce plaque accumulation
